For more information, visit <http://www.wrenchepc.com>

Something as simple as getting the job done can actually take more effort than you can imagine. Wrench solutions has come up with a new approach to tackling project management, saving global companies such as HLG and CH2M HILL both time and money.

Do you identify with these critical business issues in your daily race to complete your projects?

1. **Enforcing the process** across the organisation
2. **Documenting the process** needed for compliance and traceability, re-usability
3. **Monitoring the process** to ensure on-time delivery

The Wrench way is 100% digitalised, so all documentations, drawings and reports can be archived, updated and easily retrieved. The system is intuitive and reliable so you can regulate, enforce and ensure that the right information is accessible to the right persons, at the right time, in the right manner. Managers can log-in, query the project status and instantly view all progress conveniently from his laptop or through any internet connected terminal.

To find out more on making your project management a breeze, join HP, Wrench Solutions and our partner, Crown Systems on 10 Nov, Tuesday.

About VA TECH WABAG Ltd.

Coleridge Shelley, Deputy General Manager – ERP, VA TECH WABAG Ltd., India

WABAG is one of the world's leading companies in the water treatment field. WABAG's key competences, which are based on over 80 years of plant building experience, lie in the planning, completion and operation of drinking water and wastewater plants for both municipal and industrial sectors. The company was established in Vienna, Austria and executes projects in Europe, Middle East, India subcontinent and ASEAN countries.

Mr. Shelley will share his experiences of implementing information technology solutions for Project Management, Engineering Data Management, Enterprise Resource Planning and integrating them for efficiently executing turnkey EPC projects.

Technology for better business outcomes
