

Crown Systems Official Autodesk Launch

As projects grow more complex and budget shrinks because of the economic situation, there is now a pressing need for organizations to re-look into their operational processes to safeguard their profit margins and prepare themselves for the eventual upturn.

As an **Authorized Autodesk Value Added Reseller** and an **Oracle Certified Partner**, Crown Systems is now able to provide you with two best-in-class solutions, Autodesk and Primavera, which enables to help you achieve efficiency and productivity in all your projects.

Join us to find out about the latest trends and challenges in your industry. Learn how design workflows can be streamlined with technology. See how visualization enables you to identify issues before construction starts. Discover how two best-in-class solutions combine to deliver efficiency & productivity

Register now. Seats are limited. Email your name, company name, designation and contact details to events@crownsys.com.sg.
